Made from the same type of synthetic fibre as clothes nylon carpet goes through a number of treatments to enhance its stain resistance, anti-static and anti-soil qualities.

Nightscape

**Nylon is exceptionally easy to clean**

Nylon carpets repel liquid, so rather than it being absorbed, most liquids bead on the carpet fibres making them easier to clean up.

Birralee

**Nylon is color**

Nylon carpets provide practicality without having to compromise on beautiful colours or designs.

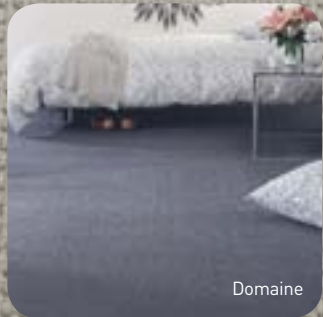

Ayresford

Corrigan

**Nylon is durable**

Nylon is a hard-wearing carpet fibre. It ages and wears extremely well.

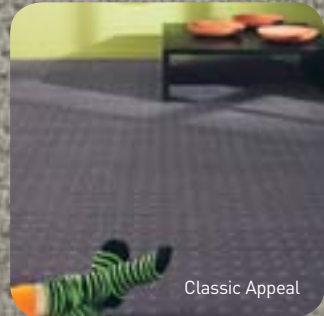

Domaine

**Nylon is resilient**

Nylon is the only man-made fibre with resilience that resembles wool, bouncing back when compressed.

**Nylon retains colour**

Nylon carpets retain their colour for a long time avoiding fading problems and increasing their lifetime.

Classic Appeal

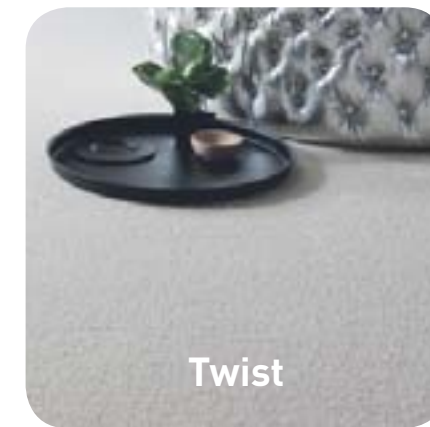

Mainsbridge

**Nylon is anti-static**

Anti-static technology is built into the carpet itself to ensure a static-free environment.

## Nylon carpet styles

To create your dream home interior there are many nylon carpet styles to choose from. The four main styles are twist, textured, loop and plush.

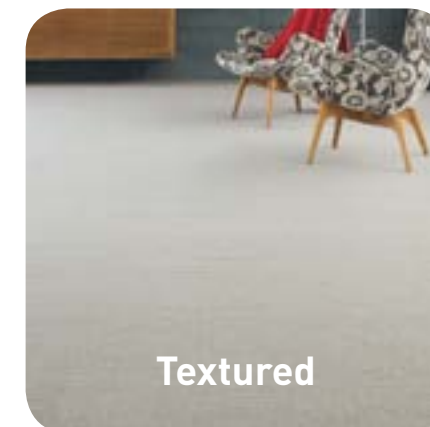

Twist

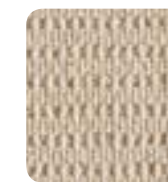

Nylon twist carpets are perfect for family homes with pets as they tend to be better at retaining their original appearance. Consider a nylon twist carpet if you have a busy lifestyle but still want the look and feel of a contemporary carpet. They're made with a twisted yarn that causes the pile to lie in different directions, giving a more textured appearance. Nylon twist carpets are hardwearing and maintain their finish.

Textured

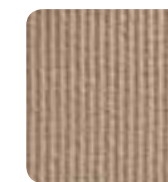

Nylon textured carpet can make a floor a real feature, adding a contemporary look to the home while delivering the hardwearing attributes you are after.

Nylon textured carpets are popular designs made up of loops and/or cut fibres of varying heights and form the textured style. Level cut loop, cut & loop and high low loop are all textured carpets.

Loop

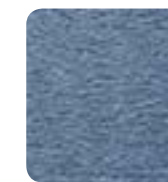

Nylon loop carpets are hard wearing, durable and tend not to show footprints as much as other carpet types. As its name suggests, a nylon loop carpet is where the carpet pile forms a loop. The pile comes from the backing to its full height, forms a loop and returns to the backing.

Plush

Nylon plush carpets have an elegant soft look. With high density ensuring many years of comfort nylon plush carpet have a luxurious feel underfoot. Plush carpets are achieved by cutting the loops and then shearing the tips.
