Solution Dyed Nylon

What are you looking for in a carpet? Superior stain resistance, exceptional fade-resistance and extra durability? Then you've found the perfect solution in solution dyed nylon. Carpet's most durable fibre, solution dyed nylon offers complete consistency in colour.

The solution dyed nylon technology locks the carpet colour into the very core of every fibre. And because it's a non-porous fibre, is resilient to abrasion and matting.

This makes it the perfect long-term choice for people who lead busy lifestyles with lots of family foot traffic. With a huge selection of colours and styles to choose from, Choices will help you find the solution dyed nylon carpet to suit your specific decorating and lifestyle needs.

To help you through the decision making process, we've prepared this comprehensive solution dyed nylon brochure. It's been developed to assist you in making an informed choice, one that's perfect for you, your home and family.

Solution Dyed Nylon offers superior stain resistance

Due to the protective layer on the fibre, a solution dyed nylon carpet can withstand normal household spills and accidents. The carpet actually repels spills, making it easier to clean up.

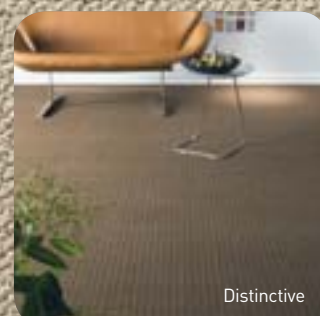

Solution Dyed Nylon looks as good as it performs

Thicker and softer to touch, solution dyed nylon carpets will retain its 'as new' appearance and touch for many years.

Solution Dyed Nylon is fade resistant

Solution dyed nylon technology locks the carpet colour in right through to the fibre to protect against fading, ideal for sun-filled areas.

Solution Dyed Nylon stays brighter for longer

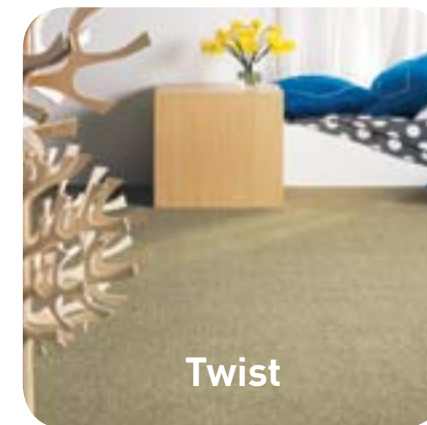

Solution dyed nylon carpets retain colour vibrancy and fastness for a long time as a result of the yarn being coloured all the way through.

Solution Dyed Nylon has advanced anti-static protection

Solution dyed nylon carpets are treated with an advanced anti-static agent during the manufacturing process, delivering outstanding and long lasting resistance to static.

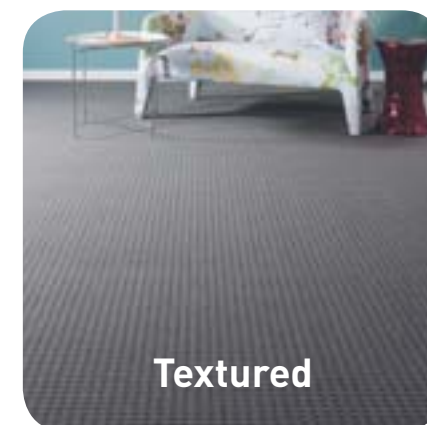

Solution Dyed Nylon carpet styles

While there are many solution dyed nylon carpet styles to choose from, the four main ones are twist, plush, loop and textured.

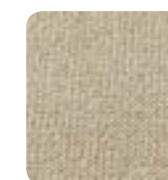

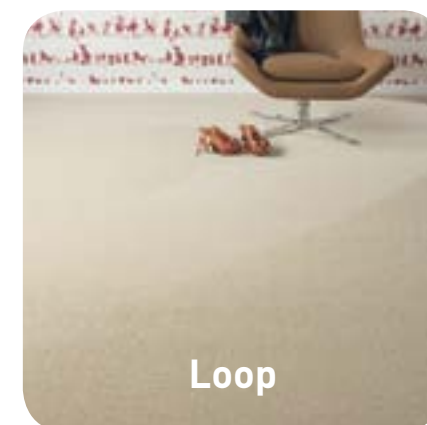

Consider a solution dyed nylon twist carpet if you have a busy lifestyle but still want the look and feel of a contemporary carpet. They are also perfect for households with pets. Solution dyed nylon twist carpets are made with a twisted yarn that causes the pile to lie in different directions, giving a more textured appearance. Solution dyed nylon twist carpets are hard wearing and maintain their finish.

Product shown: Kallay

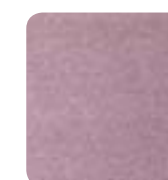

Solution dyed nylon textured carpet can make a floor a real feature, adding a contemporary look to the home while delivering the hardwearing attributes you are after. Solution dyed nylon textured carpets are popular designs made up of loops and/or cut fibres of varying heights and form the textured style. Level cut loop, cut & loop and high low loop are all textured carpets.

Product shown: Harburn

Solution dyed nylon loop carpets are hard wearing, durable and tend not to show footprints as much as other carpet types. As its name suggests, a solution dyed nylon loop carpet is where the carpet pile forms a loop. The pile comes from the backing to its full height, forms a loop and returns to the backing.

Product shown: Erskine

The soft appearance of plush pile creates a soft, rich look while its high density will ensure many years of comfort. Achieved where the loops are first cut and the tips of the loops sheared, solution dyed nylon plush carpets have a luxurious feel underfoot.
