Polypropylene

If you're looking for a flooring solution that's cost effective, durable and practical together with a special look, you simply can't go past polypropylene carpets.

Polypropylene is keeping pace with fashion trends too. It's now available in a huge selection of the latest colours and styles, textured patterns and designs to suit your decorating needs.

At Choices we pride ourselves on providing the latest advice on current interior design trends in flooring. Our experienced team will help you find the polypropylene carpet that best suits your specific needs.

In the meantime, this polypropylene carpet brochure has been developed to provide you with all the information you need to make an informed choice that is right for your home or your building project.

Polypropylene is a perfect, very cost effective solution for investment or rental properties.

Wakefield

Polypropylene is stain resistant

La Strada

Stanley Street

Union Square

Polypropylene is a very affordable solution

Polypropylene carpets can now be found in similar colours and designs at a more affordable price, making them perfect for rental or investment properties.

Polypropylene is durable

The structure of the polypropylene fibre gives the carpet extra durability, especially for the high traffic areas of your home.

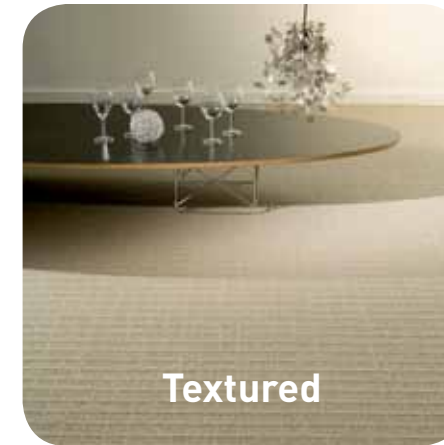

Vancouver

Polypropylene is easy to maintain

Again because of the fibre, polypropylene carpets are generally easy to maintain.

Polypropylene carpet styles

Given the sturdy properties of polypropylene carpets, they are usually manufactured in a textured or loop style.

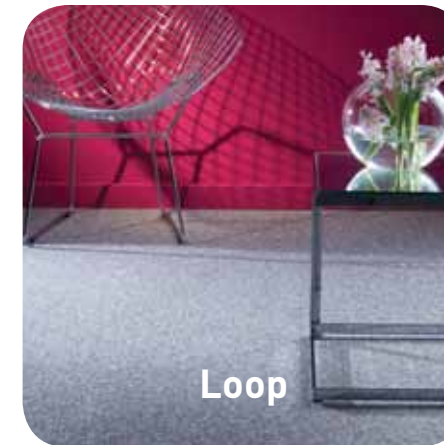

Textured

Textured polypropylene carpet can make a real feature, adding a contemporary look while delivering the hard wearing attributes you're after. Level cut loop, cut & loop and high low loop are all textured carpets. Polypropylene textured carpets are popular designs made up of loops and/or cut fibres of varying heights to create the textured style.

Product shown: La Strada

Loop

Loop pile carpets are hard wearing, durable and tend not to show footprints as much as other carpet types. As its name suggests, a polypropylene loop carpet is where the carpet pile forms a loop. The pile comes from the backing to its full height, forms a loop and returns to the backing.

Product shown: Vancouver

Polypropylene carpets hold their colour and are known for their resilience and resistance to water damage, mildew and pilling, making them a great choice for rental or investment properties.
