WHY CHOOSE THE LUXURY VINYL?

Luxury vinyl flooring has come a long way since it first made an impact on homes in the 1930's. Due to a number of advances over the years, the latest evolution features stylish designs that are water and stain resistant, incredibly durable and affordable.

Luxury vinyl is one of the fewer flooring options that are really easy to care for, all it requires is a quick sweep followed by a damp mop. If you follow the correct care and maintenance routine, it is expected to last well over 20 years, making it extremely durable.

Luxury vinyl flooring is designed with a clear wear layer, which acts as a surface barrier, protecting your floor from stains and spills. It is water-resistant.

There is a large assortment of colours and styles, including some that replicate stone and timber, meaning it will give you a luxe look for less.

BEFORE YOU BUY

Throughout this brochure you may notice a colour variation between the room and swatch images. Both are the best possible representation of that product within two different photographic environments. It is important to keep in mind that there are a number of variances in addition to lighting that may affect the way your hard flooring looks. This can include paint colour on walls, furniture and décor items that can alter the appearance of your floors.

HOW LIGHTING AFFECTS THE LOOK OF YOUR FLOOR

Flooring is one of the biggest surface areas in your home and a key design element to any interior. When selecting your hard flooring, colour plays just as much of an important role as price, style and quality.

It is important to take into consideration how your selected hard flooring may look once it is installed in your home as the lighting in the room will have a significant impact on the way the colour is perceived.

For example, hard flooring that is laid in a room that receives little to no natural light will appear drastically different to a room that has a lot of natural light coming in. It will also appear different as the light changes throughout the day and transitions from morning to night.

THE EFFECTS OF ARTIFICIAL LIGHTING

Natural sunlight is not the only lighting that has an impact on the colour of your hard flooring; the type of light fixtures you have in the room will also play a part in how the hard flooring will look in your room.

Indirect lighting, such as a wall bracket aims light toward ceilings or walls, whereas a lampshade or floor lamp has a wider spread of light, therefore the light displayed will rebound against walls and floor.

For the best representation, we recommend going into your local Choices Flooring store and request to take a sample of your desired colour home. In addition, take a sample that is a shade darker so you can compare the two shades in both natural and artificial light at various times throughout the day to ensure you are happy with the true colour of the product within your room.

The actual swatch appears most like the mid to dark sections of the room image.

Depending on the sheen and texture of the product, under natural light your flooring can appear drastically lighter.

Wall colour and furniture can appear to change the tone of your flooring due to colour reflection.

LUXURY VINYL

Care & Maintenance Guide

Luxury vinyl flooring is not only popular because of how affordable and versatile it is, but it is also incredibly hard wearing and easy to take care of day-to-day. As with any flooring in the home it will need some care and maintenance.

This simple guide will assist you in maintaining the longevity of your luxury vinyl flooring.

EVERYDAY CLEANING

Sweep or vacuum as often as necessary to remove any loose dirt or grit before it can scratch the floor. When mopping, only use a slightly damp mop (warm or cold water) alongside a gentle approved cleaner from your local supermarket or Choices Flooring store. Ensure you don't wet the luxury vinyl too much when mopping. Although it's resistant to moisture and humidity, splashing too much water on it will do it no good over time.

HARSHER SPILLS

If a spill occurs, promptly soak up the bulk liquid. Liquids that are acidic such as soft drinks and other sugar-based substances can be harder to clean the longer they're left. You won't need to use anything harsher than warm water and a gentle approved cleaner to wipe up spills.

For more information regarding the care & maintenance
of your flooring, visit [choicesflooring.com](https://www.choicesflooring.com)

Ideal for any home.

Influenced by the patterns and textures of timber, the inspirational luxury vinyl designs within the Genero Collection will provide the perfect flooring solution for your lifestyle.

The luxury vinyl flooring solutions within the Genero Collection also eliminate the noisy foot-falls that are often associated with real timber and stone flooring, to create a quieter and warmer environment in your space.

HOW IT'S MADE

① The Polyurethane Reinforcement

Thanks to a factory-applied polyurethane reinforcement, there is less work for you to do to care for your floor.

② The Wear Layer

This transparent, extremely dense layer is hard-wearing and protects the decoration of the product. This allows the surface embossing to create a highly authentic effect.

③ The Decoration Layer

Each design has been specifically developed for Camaro by means of extensive trend research and the commissioning of experienced product designers.

④ The Stabilisation Layer

Improved dimensional stability is achieved by minimising the effect of surrounding physical properties (e.g. temperature fluctuations).

⑤ The Load-Bearing Layer

The basis for the long service life and high performance of Genero Alcove.

GreenTagCert™ Certified Flooring

Genero Design has achieved a GreenTagCert™ GOLD Plus Rating, meaning it has a very good status as a sustainable product that is healthy for use in any home or commercial project. Global GreenTagCert™ is the only ACCC (Australian Competition and Consumer Commission) approved National Certification Mark in the green building materials sector. Meaning you can be sure that you are purchasing a product that is independently certified as environmentally preferred. GreenTagCert™ is an independent third party, green product rating and certification ecolabel, underpinned by rigorous scientific and Life Cycle Assessment (LCA) processes. In short, GreenTagCert™ helps the consumer identify products that are environmentally preferred, for use in their home via an independently audited and industry recognised whole of life cycle certification system. Ecospecifier's GreenTagCert™ is recognised by the Green Building Council of Australia (GBCA) and the New Zealand Green Building Council (NZGBC). Visit gbca.org.au or nzgbc.org.nz for more information.
