WHY CHOOSE ABODE?

Often referred to as rigid flooring or hybrid flooring, Abode is an evolution in hard flooring which has the visual appearance of timber, yet combines the best attributes of laminate and luxury vinyl.

Abode is quick and easy to install, with minimal to no subfloor preparation. It is exceptionally resistant to scuffs, scratches and stains, making it a perfect choice for those with busy households as it provides style and durability for everyday living.

BEFORE YOU BUY

Throughout this brochure you may notice a colour variation between the room and swatch images. Both are the best possible representation of that product within two different photographic environments. It is important to keep in mind that there are a number of variances in addition to lighting that may affect the way your hard flooring looks. This can include paint colour on walls, furniture and décor items that can alter the appearance of your floors.

HOW LIGHTING AFFECTS THE LOOK OF YOUR FLOOR

Flooring is one of the biggest surface areas in your home and a key design element to any interior. When selecting your hard flooring, colour plays just as much of an important role as price, style and quality.

It is important to take into consideration how your selected hard flooring may look once it is installed in your home as the lighting in the room will have a significant impact on the way the colour is perceived.

For example, hard flooring that is laid in a room that receives little to no natural light will appear drastically different to a room that has a lot of natural light coming in. It will also appear different as the light changes throughout the day and transitions from morning to night.

THE EFFECTS OF ARTIFICIAL LIGHTING

Natural sunlight is not the only lighting that has an impact on the colour of your hard flooring; the type of light fixtures you have in the room will also play a part in how the hard flooring will look in your room.

Indirect lighting, such as a wall bracket aims light toward ceilings or walls, whereas a lampshade or floor lamp has a wider spread of light, therefore the light displayed will rebound against walls and floor.

For the best representation, we recommend going into your local Choices Flooring store and request to take a sample of your desired colour home. In addition, take a sample that is a shade darker so you can compare the two shades in both natural and artificial light at various times throughout the day to ensure you are happy with the true colour of the product within your room.

The actual swatch appears most like the mid to dark sections of the room image.

Depending on the sheen and texture of the product, under natural light your flooring can appear drastically lighter.

Wall colour and furniture can appear to change the tone of your flooring due to colour reflection.

For more information, visit [choicesflooring.com](https://www.choicesflooring.com) or speak with your sales consultant at your local Choices Flooring store.

ABODE CARE & MAINTENANCE GUIDE

Abode has been designed with low maintenance in mind, allowing you to spend more time doing the things you love. A key benefit of Abode flooring is how easy it is to clean, and with little maintenance, you can extend the life of your floor for years to come. The nature of the maintenance will depend on the amount and type of traffic in your home. A typical maintenance program for a standard home would be as follows:

INITIAL TREATMENT

Maintain a temperature controlled environment between 18°C – 28°C and do not wash your new floor for at least 24 hours after installation. Sweep with a broom or vacuum to remove any grit and dirt. This will avoid scratching your floor prior to implementing the recommended maintenance schedule.

REMOVING SCUFF MARKS

Scuff marks on surface areas are usually caused by dragging heavy items such as furniture or sliding shoes across the floor. These can be just wiped away with a damp cloth. If you are having difficulties removing scuff marks, add some eucalyptus oil to a damp cloth and wipe scuff marks to remove any residue.

WEEKLY CARE

Sweep daily or as often as required with a broom or vacuum to remove any grit or dirt. At least twice a month, mop the entire floor with a pH neutral cleaning product. The minimum amount of water/liquid should be used to prevent moisture from penetrating into joins. Check with your Choices Flooring sales consultant which cleaning product is most appropriate for your floor.

For more information regarding the care & maintenance of your flooring, visit [choicesflooring.com](https://www.choicesflooring.com)

Karndean Designflooring

HOW IT'S MADE

① K-Guard+® Surface Protection.

Advanced PU surface protection helps resist stains and scuffs from everyday life, keeping the floor looking its best and easy to maintain.

② Clear PVC Embossed Wear Layer

A heavy-duty 0.55mm wear layer protects against scuffs, while realistic embossing recreates the texture and grain of natural timber and stone for enhanced grip and authentic visual depth. Backed by a 35-year transferable residential warranty.

③ High Definition Print

Developed by Karndean's in-house designers, the high-definition print layer captures the natural variation and character of real timber with exceptional realism.

④ Stability layer

This layer assists with dimensional stability and indentation resistance and recovery.

⑤ Karndean K-Core Technology

The Karndean K-Core technology ensures a stronger, more stable core for installation over most existing hard floors without the worry of exposing subfloor imperfections.

⑥ 5G® click-locking mechanism

Using a single action installation method, the 5G® click-locking mechanism allows the installer to quickly click and lock planks together.

⑦ Acoustic backing

Pre-attached acoustic foam backing makes rigid core products quieter to walk on than laminate or engineered hard floors, and reduces noise transfer to rooms below.

SPECIFICATIONS

Board dimensions: 1,420mm x 225mm

Pieces per carton: 10
